

Bill Validation and Entry Service for Brokers

- ❖ Endorse is a bill validation service for brokers that gives additional revenue stream – brokers can charge a premium for fast and accurate bill validation and entry
- ❖ Significantly reduce time, and cost in validating and entering bills
- ❖ No setup fee - increase your margins and customer satisfaction

3 Easy Steps

1. Email energy bills to automatically validate against pre-defined parameters and contracts
 2. Get a report of bills successfully validated and failed with discrepancies highlighted
 3. Get EDI reports for the customers and validated bills converted into customer's preferred format for importing into customer's accounting system directly without any manual intervention
- Validating the bills means customers pay the correct amount every time and on time - easily dispute and recoup the amount where customers have been billed incorrectly
 - Importing bills directly into accounting system saves resources, efforts and costs spent in manual bill entry
 - Brokers get additional revenue and also retain important relationships with their customers to secure renewals
