

ENPART - A complete metering and billing solution for sub-meters

FEATURES

- ❖ Enpart is a complete metering and billing solution for sub-meters to provide customers/landlords/service providers absolute confidence in the accuracy and reliability of their sub-meter billing requirements.
- ❖ Landlords can enter all the sub meters in the system and have a one portal access, thereby managing all tenants at one place.
- ❖ Can avail the managed service offering by Enpaas to have experts generate and manage the bills of all the sub-meters.
- ❖ Enables landlords to provide their tenants with bills as per their accurate consumptions.
- ❖ Gives a detailed representation of the bill(s) and a graphical view of the energy usage as well.
- ❖ Landlords as well as tenants can upload their meter readings individually.
- ❖ Generates an accurate energy usage profile.
- ❖ Tenants can raise tickets which can be handled by the landlord's office or by Enpaas.
- ❖ Enpaas can handle virtual sub-metering and their billing even when a physical meter is not installed at a site.
- ❖ If physical sub-meters are not installed, then billing of the sub meters can be based on either a percentage of the main meters' bill or a fixed fee, based on the size of the business.

Comprehensive understanding of energy data for specific equipment

Manage multiple sites on a single portal

Ticketing System for complaints

Graphical representation of energy usage & detailed bills

Avail managed services for metering & billing

Upload accurate, individual meter readings

BENEFITS

1. Manage all tenants at one place
2. Identify & eradicate energy wastage by having a better understanding of how the property uses energy
3. Gain access to deep energy intelligence
4. Pin-point poor on-site energy management
5. Improve process efficiency
6. Comprehensive understanding of energy data for specific equipment
7. Comply with regulatory requirements like ESOS
8. Recognize unusual demand spikes
9. Clearly see the impact of operational modifications & energy-saving measures
10. Manage & bill virtual sub-meters
